

MRD-L6030(-50W)

- A combination of an electronic sewing machine and a laser cutting machine.
- Ideal for sewing and cutting which requires precision.

Use

Air bag

Car seat

## Mechanical properties

1. Post-sewing laser cutting can eliminate the effect of puckering whereby precision cutting can be made.
2. Lockstitch sewing machine with double-size rotary hook and long arm
3. **Feed mechanism** : AC servo motor
4. **Laser** : 50 W CO2 laser (different laser power can be selected according to customer request)
